

Keep in mind that free tier has limits by IP. Like GitHub, Google Maps... If your deploy rely on this services may be stuck if someone exceed the IP quota.

The Greedy Server!

# The Greedy Service consumer!

- Is your company using free tier services?
- Has your company GitHub Business account?

Keep in mind that free tier has limits by IP. Like GitHub, Google Maps... If your deploy rely on this services may be stuck if someone exceed the IP quota.

# In the deployment step

.....
