- Agents need a firewall to avoid lateral movements
- Don't share the production network with any CI/CD software
- Don't share the internal network with any CI/CD software

If you can keep the CI/CD in their own network. Access control is mandatory.

Keep NETWORK safe!

Keep NETWORK safe!

- Agents need a firewall to avoid lateral movements
- Don't share the production network with any CI/CD software
- Don't share the internal network with any CI/CD software

If you can keep the CI/CD in their own network. Access control is mandatory.
